AUTOMATIC VACUUM CLEANERS

LIL SHARK

The GW8000 comes fully equipped, including 10m hose and accessories.

FEATURES

- Low flow-rate needed (5m³/h)
- Easy to install and user friendly with only one moving part for extra reliability
- Vacuums and scrubs. Patented bristle drive
- Vac handle attachment to pole for spot cleaning

| Reference | Description | Euro |
|------------|------------------------|------|
| 3008061446 | Lil Shark pool cleaner | 296 |

POOL SHARK

The GW7500 comes fully equipped, including 10,3 m hose and accessories.

FEATURES

- Vortex chamber and flapper assembly vacuum small and large debris
- Squeegee-like fins dislodge stubborn dirt
- Designed for all in-ground pool surfaces
- Low flow-rate needed (11m³/h) - max pool size 12 meters

| Reference | Description | Euro |
|------------|-------------------------|------|
| 3008061447 | Pool Shark pool cleaner | 497 |

GREAT WHITE

The GW9500 comes fully equipped, including 10 m hose and accessories.

FEATURES

- Designed for all in-ground pool surfaces
- Special cam to avoid being trapped behind pool ladders
- Reliable bristle drive technology for quick and complete cleaning
- Low flow-rate needed (11m³/h) - max pool size 10 meters

| Reference | Description | Euro |
|------------|--------------------------|------|

NEW KREEPY KRAULY

The New Kreepy Krauly has a revolutionary new design that produces better suction, which enables it to pick up even larger debris. It's sleeker, faster, and more cost efficient than before, plus the New Kreepy Krauly has an exclusive 4-year limited warranty.

FEATURES

- Suitable for all pool surfaces
- Unique dive float assembly for improved balance and wall climbing ability
- Hard wearing flapper with lifetime guaranty
- Patented head design improves water flow to the pump
- Completely safe for swimmers
- Supplied with 12 x 1 m hose
- 4-year warranty on machine, 2-year on the hoses*

| Reference | Description | Euro |
|------------|-------------------|------|
| 3008011860 | New Kreepy Krauly | 322 |

E-Z VAC

E-Z Vac is designed with the same reliability that has made the Kreepy Krauly inground cleaner the number one choice of pool owners and pool professionals worldwide. The E-Z Vac vacuums dirt and debris from your pool just like a hand vacuum does. The difference is E-Z Vac works automatically.

FEATURES

- Works great in all above ground pools with banked or radius coves
- Only one operational moving part for long, dependable service
- Installs in minutes with no tools
- Completely safe for swimmers
- Supplied with 12 x 1 m hose
- 2-year warranty on machine, 2-year on the hoses*

| Reference | Description | Euro |
|------------|-------------|------|
| 3008021956 | E-Z Vac | 292 |

JOKER V22

Automatic pool cleaner for flat-bottomed or sloped pools, which can be used for above ground pools. Joker V22 is connected directly to the skimmer or the vacuum line and works by suction with no need of electricity using the existing filtration system (4m³/h minimum).

FEATURES

- Supplied with 10 meters hose in sections of 80 cm
- Easy installation - no tools required
- Supplied with pressure regulator for constant flow
- Works with a 1/2 HP pump
- 3-year warranty*

| Reference | Description | Euro |

AUTOMATIC PRESSURE CLEANERS

Legend II

Four wheel/ Front wheel drive

Automatic pressure side pool cleaner. Better tracking and stability for faster cleaning. The legend is suitable for concrete, liner and fibreglass pools, and can clean most pools thoroughly in just 1 to 3 hours.

FEATURES

- four wheel/ front wheel drive provides superior tracking and stability
- specially designed debris channel and massive intake throat tackle debris with ease.
- heavy-duty, large capacity, twist-lock collection bag is designed for efficiency and easy maintenance
- Weight: 10 kg
- 3-year warranty*

Specific features:

- no booster pump required. Provides the same thorough cleaning, but without a booster pump.
- quad-jetted vortex venturi creates ultra-strong vacuum action for superior cleaning.
- dual thrust jets for superior pool coverage.

| Reference | Description | Euro |
|------------|---------------------------------------|------|
| 3008041609 | Legend® II Automatic Pressure Cleaner | 796 |

New Legend

- Large capacity, heavy-duty collection bag: remove and replace with a quick twist !
- Just as with cars, front-wheel drive creates better grip for better maneuverability and sure tracking for fast and thorough cleaning performance.
- Underside of Legend shows its specially designed debris channel and massive intake throat that removes ultra-small and large debris.

Requires additional booster pump !

Boost-Rite

Booster pump for pressure side cleaner

FEATURES

- Powerful multistage booster specially adapted for optimal drive of pressure cleaners
- Suitable for salt water pools
- Compact thermoplastic body for tight spaces
- Drain and priming ports

| Reference | Description | Euro |
|------------|-------------------------|------|
| 3003018534 | Boost-Rite booster pump | 318 |

PIRANHA

The Piranha Swimming pool cleaner has a patented self-adjusting turbine, which maximizes the power from the water flow. This turbine is similar to a paddle wheel with blades that are adjustable. This feature allows the Piranha to move even at low suction and low pressure. In addition, the folding vanes of the turbine allow for the easy passage of larger debris through the cleaner.

The Piranha has an internal programmed steering system, that causes the left wheel to periodically reverse, allowing the Piranha to turn and then move into another direction. There are five different programmed turns ranging from 90 to 450 degrees. The Piranha will travel 3 to 5 meters before it turns.

The Piranha cleans more in the shallow end than any other cleaner and has no problems with uneven surfaces or unusual shapes.

FEATURES

- Easy to handle
- Efficient programme control
- Compact construction
- Optimum suction
- Powerful turbine
- For pools of all different shapes and types
- Low-noise operation
- Weight: 10 kg
- Supplied with 10 x 1 m hose
- Warranty: 2 years*

ELECTRICAL CLEANERS

DOMESTIC

RANDOM 3D

The Random 3D is a computer-controlled programmed pool cleaner that caters to all your pool needs. The Random 3D vacuums, scrubs, and filters completely automatically the pool bottom and the walls. The robot is powered by a 12 Volt super efficient motor system.

FEATURES

- standard CE and TUV-GS
- recommended pool size: up to 80 m²
- cleaning speed: 550 m²/h
- work cycle: 3 hours
- filter porosity: 2 microns
- electrical specs: 230 V / 50 Hz
- voltage in water: 12 V
- drive motor: 12 V DC
- filter motor: 12 V DC
- cleaning programme: walls & bottom
- weight: 7,3 kg
- suction rate: 16 m³/h
- dimensions: 432 x 381 x 267 mm
- floating cord length: 16 meters
- warranty: 2 years*

* not on moving parts, subject to wear

TIGER SHARK

The robotic pool cleaner Tiger Shark is a very strong and efficient cleaner that uses removable cartridges. The Tiger Shark functions with 2 motors, one for the tracks and one for the vacuuming. The robot can be equipped with gel rollers for concrete and liner pools or with high grip foam rollers for tiled pools. The Tiger Shark sucks dirt from the bottom and the walls.

FEATURES

- standard CE
- recommended pool size: up to 80 m²
- cleaning speed: 18 meters/minute
- work cycle: 3 hours
- filter porosity: 5 microns
- electrical specs: 230 V / 50 Hz
- voltage in water: 24 V
- drive motor: 24 V DC
- filter motor: 24 V DC
- cleaning program: walls & bottom
- weight: 10 kg
- suction rate: 17 m³/h
- dimensions: 410 x 410 x 280 mm
- floating cord length: 18 meters
- warranty: 2 years*

CAYMAN

The Cayman belongs to a brand new generation of electrical robots. Its electronical memory card, when connected via a USB port and a CD-rom software, provides all the data on the robot's activity and thus improves the quality of the off-site maintenance. Very attractive with its rounded shape and its lively colours, the Cayman features two cleaning cycles for a greater flexibility. Very innovative, the disposable polyester filters ensure an optimum efficiency of the robot. Moreover, the trolley designed to carry the robot and its transformer, also folds up to provide a perfect protection for the robot and a compact storage.

FEATURES

- 2 engines
- electronical memory card and USB port for self diagnostic
- cleaning speed: 16m/min
- work cycle: 5 hours or 90 minutes
- filter porosity: 50 microns
- weight: 9,7 kg
- warranty: 2 years*
- floating cord: 18 meters
- alimentation: 24 volts DC

AQUABOT BRAVO

The Bravo is a computer controlled robotic cleaner, programmed to completely clean all sizes, shapes and types of standard residential swimming pools.

The Bravo will clean the bottom of your pool in 1,5 hour and operates completely independently of your main pool filter.

FEATURES

- standard CE
- recommended pool size: up to 80 m²
- cleaning speed: 550 m²/hour
- work cycle: 1,5 hours
- filter porosity: 2 microns
- electrical specs: 230 V / 50 Hz
- voltage in water: 12 V
- drive motor: 12 V DC
- filter motor: 12 V DC
- cleaning programme: bottom
- weight: 8,2 kg
- suction rate: 16 m³/h
- dimensions: 435 x 450 x 470 mm
- floating cord length: 18 meters
- warranty: 3 years*

* or 200 run cycles

AQUABOT VIVA

The Viva offers a convenient wireless radio remote control system with two automatic cleaning options - one for cleaning the bottom of the pool, and one for the bottom and the walls. With the radio remote control function you can override the automatic cleaning in order to spot and clean troublesome areas of the pool.

FEATURES

- standard CE
- recommended pool size: up to 100 m²
- cleaning speed: 550 m²/hour
- work cycle: 1,5 hours (programme I)
3 hours (programme II)
- filter porosity: 2 microns
- electrical specs: 230 V / 50 Hz
- voltage in water: 24 V
- drive motor: 2 x 12 V DC
- filter motor: 12 V DC
- cleaning programme: programme I: bottom only
programme II: bottom and walls
programme III: remote controlled
- weight: 10,2 kg
- suction rate: 16 m³/h
- dimensions: 435 x 450 x 470 mm
- floating cord length: 23 meters
- warranty: 3 years*

* or 200 run cycles
