### HIDROJET CALIPSO

Easy to install, this equipment turns your swimming pool into a bubbly water stream. It forces water and air at high speed, providing different flows, as desired by the user, to get the required resistance.

**Equipped with:**

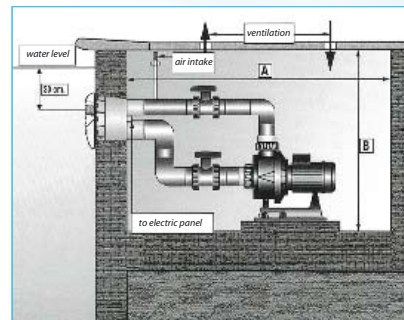

- Swinging and adjustable nozzle 40 mm Ø (water-air).
- Front part of attractive design with built-in pneumatic push-button.
- Housing for pre-installation with check valve and air pipes
- Electropump KARPA series, power according to model.
- Electropneumatic panel for pump control and protection.
- PVC complete kit (pipe not included).
