

Aqua Eazi

Rapid Chlorine

Shock Chlorine

Chlorine long action

Bromine

Chlorine 4 actions

Algicide

pH Minus

pH Plus

Chlorine stabilizer

Flocculant

Anti scale

Cleaning liquid for water lines

Winterising

Cleaning liquid for coping stones

Start up kit for swimming pool

PCH - Calcium hypochlorite

AQUA EAZI

The New Phosphate remover and water clarifier flocculent

With first ever technology, the EAZI CUBE removes phosphates from your pool water. Phosphates are algae food, when removed algae die. Eazi Cube dissolves and binds sub-micron particles like algae spores to be trapped by the filter and eliminated from your pool water. The use of the Eazi Cube reduces chlorine demand by removing contaminants.

Simply place 1 or 2 Eazi Cube's into your skimmer basket.

Reference	Model	Description	Packing (cm)	Euro
3083015157	AQSP4	Aqua Eazi - Counter display box	48 x 90 g	156,00
3083015857		Aqua Eazi	2 x 180 g	8,71

CHEMICALS PPG

Reference	Description	Euro
3034012787	Rapid Chlorine Granules 5 kg Disinfectant, destroys and stops the development of micro organisms and bacteria. Sodium dichloroisocyanurate, minimum 60% active chlorine	29,74
3034012789	Rapid Chlorine Granules 10 kg Disinfectant, destroys and stops the development of micro organisms and bacteria. Sodium dichloroisocyanurate, minimum 60% active chlorine	61,79
3034012791	Shock Chlorine Tablets 20 gr - 5 kg Disinfectant, destroys and stops the development of micro organisms and bacteria. Trichloroisocyanuric acid, minimum 50% active chlorine	27,80
3034012792	Shock Chlorine Tablets 20 gr - 10 kg Disinfectant, destroys and stops the development of micro organisms and bacteria. Trichloroisocyanuric acid, minimum 50% active chlorine	55,59
3034012795	Chlorine long action Tablets of 250 gr - 5 kg Disinfectant, destroys and stops the development of micro organisms and bacteria. Trichloroisocyanuric acid, minimum 90% active chlorine	36,61
3034012796	Chlorine long action Tablets of 250 gr - 10 kg Disinfectant, destroys and stops the development of micro organisms and bacteria. Trichloroisocyanuric acid, minimum 90% active chlorine	73,04
3034013135	Bromine 5 kg To be used in swimming pools and spas. To be used with a dosing system. Less aggressive for skin and eyes. Odourless.	68,47
3034012797	Chlorine 4 action Tablets of 250 gr - 5 kg Disinfectant, algicide, flocculant, chlorine stabiliser. Trichloroisocyanuric acid, minimum 80% active chlorine	30,12
3034012798	Chlorine 4 action Tablets of 250 gr - 10 kg. Disinfectant, algicide, flocculant, chlorine stabiliser. Trichloroisocyanuric acid, minimum 80% active chlorine	60,25
3034012800	Chlorine long action tablet of 500 gr - 8 kg Disinfectant, destroys and stops the development of micro organisms and bacteria. Trichloroisocyanuric acid, minimum 90% active chlorine	55,16
3034012802	Algicide 5 L Used regularly when filling the pool, it will inhibit the growth of algae. Contains quaternary ammonium chloride.	12,38
3034012803	Concentrated algicide 5 L Used regularly when filling the pool, it will inhibit the growth of algae. Contains quaternary ammonium chloride.	15,14

Reference	Description	Euro
3034012805	pH Minus 5 kg Lowers the pH, reduces chlorine smell and reduces irritation of the eyes. Contains sodium bisulphate	12,20
3034010712	pH Minus liquid 7 kg For use with dosing pumps	14,06
3034012806	pH Plus 5 kg Increases the pH value, reduces chlorine smell and reduces irritation of the eyes. Contains sodium carbonate	10,41
3034010713	pH Plus liquid 6,6 kg For use with dosing pumps	16,68
3034010714	Insect-chase-away 3 L Chases away bees and mosquitos (not toxic)	14,87
3034010715	Ovy Twin Box (6 cubes of 500 gr) Ovy Twin is a new disinfectant based on hydrogen peroxide. Suitable as: -regular disinfection - shock disinfection - destruction of and prevention against the development of algae - flocculant (improved filtration) - stabilizer - better pH-control - water clarifier Put every week 1 cube (500 gr) of Ovy Twin directly in the skimmer for each 30-45 m ³ of water.	64,87
3034012807	Chlorine stabilizer 2 kg Lowers the oxidation of chlorine. Contains isocyanuric acid	11,09
3034012808	Liquid Flocculant 5 L To obtain a sparkling clear water. Will precipitate suspended solids. Contains aluminium sulphate	14,93
3034017752	Flocculant tablets 1 kg. Especially for sand filters. Clarifies the water. Contains aluminium sulphate	9,27
3034012811	Anti scale 5 L Eliminates scaling and will prevent scaling of filters, heating elements and liners. Contains modified potassium polyacrylate	17,39
3034012813	Cleaning liquid for water lines 1 L Eliminates a greasy water line. Contains sodium hydroxide and surfactants	4,33
3034012814	Winterising 5 L Reduces growth of algae and scale formation during winter period. 30% quaternary ammonium chloride	17,33
3034012816	Cleaning liquid for coping stones 5 L Will clean green spots and algae on the coping stones around the pool. Contains quaternary ammonium chloride	7,03
3034012817	Start up kit for swimming pools Especially for above ground pools. Allows a starting treatment and maintenance of your pool. 1 chlorine tablets of 20 g - 2 kg + 1 anti algae liquid - 2 L + 1 testkit (pH and chlorine) + 1 dispenser	40,56
CHLORINE WITH REGISTERED LABELS FOR BELGIAN MARKET		
3039001044	Rapid Chlorine granules 1 kg	9,80
3039001045	Rapid Chlorine granules 5 kg	43,26
3039001046	Long action Chlorine tablets of 200 gr, 1 kg	11,00
3039001047	Long action Chlorine tablets of 200 gr, 5 kg	45,97
PCH - CALCIUM HYPOCHLORITE 70%		
3034015939	PCH granules 1 kg	12,17
3034015940	PCH granules 5 kg	31,64
3034015941	PCH granules 10 kg	60,84
3034015942	PCH granules 25 kg	198
